PROFILE

I am a junior full-stack web developer with aspirations towards design and UI/UX. I have a strong background in computer-based music production and hold creative problem solving as one of my highest aptitudes.

EXPERIENCE

KARMATIC, COMMUNITY HELP APP — 2022

- Led front-end team and created mock-ups.
- Executed code to MVP based on mock-ups using React and Styled-Components
- Communicated with back-end to efficiently write code for production.

FIG-E, BUDGETING APP — 2022

- Website design and build from wireframe to MVP.
- Used Handlebars.js and Bootstrap for front-end design.
- Worked closely with backend team integrating GitHub for collaboration.

TEK BLOG, TECHNOLOGY BLOG — 2022

- Utilized Express, Node, MySQL, and Handlebars.js for a full-stack web blog.
- Integrated a RESTful API architecture for a responsive webpage that's set up for scalability.
- Deployed application to host service Heroku with a MySQL database.

SKILLS

React	Styled-Components	CSS	Node.js	Express.js
Javascript	MySQL	Bootstrap	MongoDB	HTML5
